

SINCE 1968

SINCE 1968

In 1968 we were the first to introduce thermoware jugs in India giving it the name - Mayur Jug which was to become a revolution and has since become a generic term for all insulated jugs. No wonder even to this day all thermoware jugs are referred to as Mayur Jug. But we still are the market leaders with a brand that is trusted by millions.

Our innovation has led to the hottest, coolest and freshest products since 1968. Constant technological advancement and new product development has made Mayur the industry leader for nearly 54 years now.

Today Mayur is creating innovative products with newer, fresher ideas and continuing its tradition of innovation by creating unique products for a better life style.
